ARCADIS BBL Project No.:  
B0044134

Subject:  
Waters/Wetlands Delineation  
Cytec Carteret Impoundments

---

Gene,

As discussed yesterday, we (ARCADIS BBL) completed a significant portion of the waters and wetlands delineation on Cytec's Carteret facility during the week of December 10, 2007. Unfortunately, we were unable to gain overland access to Impoundment 1 and thus could not complete the delineation. Based on review of maps and site observation, it appears that the only land access to Impoundment 1 is through the neighboring property to the east.

We have attached a waters and wetlands delineation map to this memorandum for additional reference. To complete the delineation, we anticipate requiring approximately one day of field work for two ARCADIS BBL staff and two field days for a survey crew consisting of two staff from Crest Engineers.

Please let us know if there is anything additional we can do to assist in this matter. Our schedule is flexible, and we do not anticipate needing access until after the New Year and start of 2008.

Thanks again.
